Accurate, High-Speed
Sortation Solutions

Micro Tilt-Tray Sorter

For articles weighing up to 3 Kg with
tray sizes starting at 140 mm X 280 mm

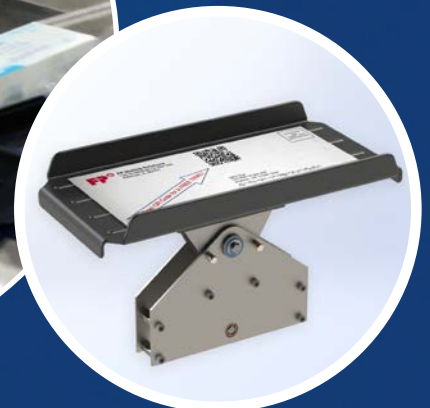

GBI has been the industry leader and innovator of
small tilt tray sorters for over 30 years.

GBI brought to market the first high-speed Micro
Sorter for jewelry and is often considered the
“gold standard” for small item sortation.

The Micro-Sorter is durable and easy to
maintain with few moving parts.

Ideal For:

- Pharmaceuticals
- Small Parcels
- Flats
- Jewelry
- Cosmetics
- Consumer Goods

FEATURES

GBI's sortation systems are
high speed, low-maintenance,
and modular, resulting in short
order turn around and rapid
implementation.

Highly Accurate

1 in 10,000 or better

Ultra High Speed

Delivering sortation speeds up to 3 m/s

Low-Maintenance

Minimal downtime and low total cost of ownership

Versatile & Modular

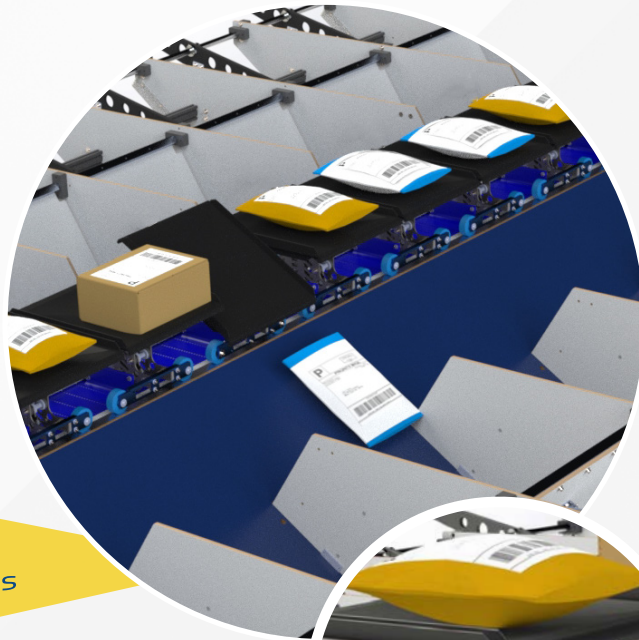

Simultaneously sorts a wide variety of package
sizes, shapes and packaging materials

Small Footprint

Optimizes expensive
warehouse space
